

30/4/24

**Broad Topic** – Digital Inclusion

**Sub topic** – Technology for Seniors

**Focus in subtopic** – Assistive Technology for Seniors?

**Why:** we all have grandparents and have watched as technology and society has evolved rapidly while leaving them in the dark as to new innovations.

Digital inclusion

Social applications (chatbots, simple to use OS's etc.)

Pros

Cons

critically appraise past, present and future application of digital systems with particular emphasis on their impact on society in general and also upon the individual.

14/5/24

- Unable to present as half the group was away
- Rescheduled for Thursday
- Now working on individual research

30/5/24

- Research now fully complete
- Finishing up website and individual ethical research
- Will begin paraphrasing our research onto our 3 slides
